

PROCEEDINGS OF THE PUBLIC HEARING OF M/S DUBEY BROTHERS IRON AND METALS PVT LTD FOR ESTABLISHMENT OF IRON ORE BENEICIATION PLANT WITH THROUGHPUT CAPACITY OF 0.15 MTPA OVER AN AREA OF 1.768 ACRE HELD ON 23.05.2025 AT 11.00 AM AT MOUZA- KOLHA BARPADA, (KHATA NO. 169 (AJA), PLOT NO. 214, KISAM-JUNGLE) PROPOSED AREA 2.00 DEC UNDER BARBIL TAHASIL OF KEONJHAR DSTRICT.

The public hearing in respect of the above project was held on 23.05.2025 as per the schedule and at the venue in accordance with the EIA Notification S. O. 1533 (E) dt. 14.09.2006. The public hearing with regard to date, place and time was announced in Public Address System in nearby villages of proposed project site and also published in Daily News Paper. The process followed for public hearing was adequate.

Er P Kar, Regional Officer, State Pollution Control Board, Keonjhar welcomed the public to the hearing and briefed about the objectives, process & procedures followed for conducting such public hearing.

Sri Rabindra Kumar Pradhan, OAS (S), Additional District Magistrate (Revenue), Keonjhar presided over and supervised the public hearing. He briefed about the importance and objectives of such hearing and invited the project proponent to highlight on proposed project.

Sri Mrutunjay Das representative of M/s Dubey Brothers Iron and Metals Pvt Ltd explained about the proposed project and briefed about the Pollution Control measures to be adopted in the mine.

The following is the summary of the public hearing proceedings, reflecting all the views and concerns expressed by the assembled public at the venue. It was recorded by the officials of the Regional Office, State Pollution Control Board, Odisha, Keonjhar.

1. Sri Ishwar Chandra Barik, PS Member, Karakhendra GP

Sri Barik stated that the project proponent has assured employment for seventeen individuals both skilled and unskilled, once the plant becomes operational. He emphasized the need for the proponent to clarify which specific area or village the local employment opportunities will be provided. Furthermore, he expressed that the operation of the plant is expected to bring benefits to the local community. He extended his support for the public hearing and conveyed his hopefulness that the villagers will gain from the plant's operations.

2. Sri Shyam Sundar Behera, Kolha Barpada

After addressing the dais and the gathering Sri Behera expressed that the establishment of the proposed plant in their area is a welcome development. However, he emphasized that the company should ensure employment opportunities are extended to all villagers. He also highlighted the urgent need for an ambulance facility remarking that the village currently lacks adequate medical infrastructure. He further mentioned that although several small and large-scale industrial units are already operating in the area, no such healthcare or emergency facilities have been provided so far.

3. Sri Jiten Munda, Barpada

Sri Munda expressed his happiness over the establishment of the proposed plant in their village. He stated that approximately 3,000 people reside in the village and many are compelled to seek employment outside due to limited local opportunities. He conveyed hope that the village will witness development once the plant becomes operational. He highlighted that the primary issue currently faced by villagers is the inadequate supply of drinking water. He is hopeful that the plant will offer employment to local residents based on their qualifications. Further, he suggested that the company shall provide financial assistance for village festivals and shall contribute to the development of roads, education, and medical facilities in the area.

4. Sri Akshay Kumar Behera, Kolha Barpada

Sri Behera after addressing the gathering expressed deep concern regarding the employment situation in the village. He pointed out that although several companies such as Arya, Panchwati, and PTCL are operating in the vicinity, it is unfortunate that none of the local villagers have been provided with job opportunities in these establishments. He emphasized that the village has a diverse pool of qualified youth including teachers, technicians, and ITI-trained individuals. Yet, despite their qualifications and willingness to work they remain unemployed. Neither the private companies nor the concerned government officials have taken meaningful steps to engage or support them. He sadly remarked that "just as there is darkness beneath the lamp, the villagers too are living in darkness" stressing on the stark contrast between industrial presence and local deprivation. He attributed the villagers support for the establishment of a new plant in the area recognizing its potential for regional development. However, he stressed that the foremost expectation of the villagers is that priority in employment must be given to the local population be it as laborers, technicians, or in any other categories. At last he urged the company to honor the assurances given to the villagers and not to forget their commitments once the plant becomes operational.

5. Sri Pradeep Kumar Behera, Kolha Barpada

Sri Pradeep expressed his happiness that the proposed plant is set to commence operations in their area. He is hopeful that the company will prioritize locals for providing employment opportunities. He pointed out that although companies such as Arya and PTCL are already operating in the region they have neither extended basic facilities to the villagers nor shown any concern for their welfare. He also emphasized that the grievances of the local population have largely been ignored by local ministers & authorities which reflects sheer negligence towards the villagers. He made a request to the District Administration to address the critical issues particularly traffic jam and road dust control in Barpada road which needs immediate attention.

6. Sri Raj Kishore Behera, Kolha Barpada

Sri Behera said it is acceptable that the plant is being established. However, it is essential that employment opportunities be provided to local villagers in relevant categories such as technicians, laborers, masons, etc. Merely promising employment without actual implementation holds no value. Concrete steps must be taken to ensure it.

7. Sri Pabitra Barik, Kolha Barpada

Sri Barik stated that the company must provide all necessary facilities to the local villagers.

8. Sri Sarbadhikari Behera, Kolha Barpada

Sri Behera after addressing the gathering stated that the project proposed by the company is a welcome initiative for the area. However, he also emphasized on several associated concerns. Firstly, he pointed out that the company will use the village road for transporting iron ore which is currently very narrow and not suitable for heavy traffic. He therefore requested the government officials to ensure that the company widens the approach road before commencing transportation activities. Secondly, he emphasized that the plant must operate strictly in compliance with all government rules and regulations and must not violate any conditions set by the State Pollution Control Board. If these conditions are met the villagers will fully support the operation of the plant

9. Smt. Madhuri Kangari, Kolha Barpada

Smt. Madhuri stated that employment must be honestly provided to the local villagers and the assurance should not be limited to words only. She emphasized the lack of basic infrastructure in the area and urged the company to ensure the provision of essential facilities such as proper roads, medical services, and drinking water supply. She said that many companies in the past have made similar assurances but have failed to fulfil them. Employment opportunities should be offered to

Kolha Barpada villagers based on their eligibility, with priority given to locals first before considering candidates from outside. She firmly stated that if this is not valued the villagers will not permit outsiders to work in the plant.

10. Sri Mongulu Moharana, Kolha Barpada

Sri Moharana stated that for first time this plant is being set up in their area which is indeed a welcome development. However, he raised concerns that companies like Arya and others have failed to provide any employment opportunities to local villagers. He questioned why this is the case, asking whether the villagers are considered unqualified for jobs such as Mechanical, Holder, Fitter, Program Operator, Loader Operator etc. He expressed frustration that despite having skilled individuals the villagers are still being overlooked and forced to live in low-profile conditions. He emphasized that since this plant is operating for first time in their area it must operate responsibly and must provide employment to all eligible villagers. He clearly stated that if fair employment is not ensured the villagers will not agree to any terms with the company.

11. Sri Krishna Munda, Kolha Barpada

Sri Munda after addressing the gathering expressed his happiness regarding the establishment of the plant in their area. He mentioned that this initiative would provide job opportunities for all educated youth in the village. He also extended his full support to the Public Hearing.

12. Sri Kripal Munda, Ward Member, Ward No. 6, Kolha Barpada

Sri Kripal stated that he is pleased about the plant to be set up in their Panchayat area as it will create job opportunities for the local youth. He firmly emphasized that priority in employment must be given to locals before considering outsiders. He warned that if this condition is not met the villagers will refuse to enter into any agreement with the company.

13. Sri Ganesh Das, Kolha Barpada

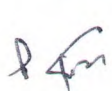

Sri Ganesh after addressing the gathering and the dignitaries on the dais welcomed the proposed project stating that it is essential for the development of the area. He emphasized that the company must provide employment to locals based on their educational qualifications. Expressing his frustration, he shared that despite having completed his graduation he has still remained unemployed and has approached Arya Steel Company but they had not offered him an opportunity. He hopes this should not repeat in this plant. He urged the company to ensure that employment is provided according to individuals' skills giving an example that a rickshaw puller cannot be expected to perform the duties of a dumper driver. He stated that if the company meets the demands placed by the villagers there will be no objection to the plant's operation. Furthermore, he highlighted the presence of many poor and elderly residents in the village and requested the company to conduct monthly medical camps, provide ambulance services, and take steps to improve the village roads.

14. Sri Manoj Das, Kolha Barpada

Sri Manoj Das stated that all their demands have already been submitted to the company, the Panchayat office, and shared with the villagers. He emphasized that employment must be provided to locals as many villagers are currently forced to migrate to other states such as Gujarat, Hyderabad, Chennai, and Bangalore in search of work. He added that if the plant becomes operational in their area and provides all necessary facilities and employment opportunities, the villagers will no longer need to leave their homes in search of livelihoods elsewhere.

15. Sri Lokin Tubid, Kolha Barpada

Sri Lokin Tubid stated that he is not satisfied with the project, as the company is making agreements secretly. He mentioned that two more companies operating there named Arya Steel & PTCL had previously deceived them regarding employment opportunities. He also expressed concerns that if the plant becomes operational it would harm the rivers and pollute the air. Therefore, he does not support the project.

16. Sri Gopal Munda, Champua Basti

Sri Munda stated that all the companies gives assurances of employment but after operations begin they do not keep their promises. Instead, they ask for various documents and make excuses to deny employment. Therefore, he emphasized that this plant should ensure that such people are given employment opportunities.

17. Sri Sashikanta Khilar, Zilla Parishad Member, Zone-26, Bolani

Sri Khilar after addressing the dignitaries on the dais and the gathering stated that most people present at the public hearing had raised demands for employment opportunities. He said that even before the hearing, when they first heard about the plant coming to their area they had spoken with the company regarding employment of locals and for provision of essential facilities for the villagers. The company had assured them that these concerns would be addressed. Therefore, they are supporting the public hearing.

18. Ms. Subuni Munda, Naib Sarpanch, Karakhendra GP

Ms. Subuni Munda after addressing the gathering stated that employment should be provided to locals based on their skills and educational qualifications. She said that she had nothing further to say as all other demands had already been presented by the Zilla Parishad Member & others.

19. Sri Loknath Barik, Kolha Barpada

Sri Barik said it is a positive development that the company will operate in their area but emphasized that the company must fulfil the demands made by the villagers. He highlighted the issue of traffic congestion on both sides of the road which is hindering children's access to school and stressed that there should be no traffic jams to ensure safe and easy movement. He also urged the company to install street lights on both sides of the road, ensure water supply, and construct a medical for the villagers.

20. Sri Mayadhar Behera, Kolha Barpada

Sri Behera expressed his support for the project and stated that he wants the plant to become operational so that it can generate employment opportunities and everyone can benefit from it.

21. Sri Parsuram Barik, Kolha Barpada

Sri Parsuram stated that the company should provide employment to locals based on their qualifications. He pointed out that although three companies named Arya, Panchwati & PTCL are already operating in the area but many people remain unemployed. He emphasized that the new project should contribute to the development of their village and must not make blank promises. Further, he mentioned that the project proponent spoke about providing employment to seventeen individuals, but it needs to be clarified in which categories i.e. Skilled, Semi-skilled or Unskilled and which areas will be given preference. He also stressed that traffic congestion on the main road leading to the plant should be addressed and that the educational development of local children must be prioritized.

22. Sri James Nag, Kolha Barpada

Sri Nag after addressing the gathering stated that while everyone is happy that the new plant will commence operations bringing employment opportunities and development to the area there are concerns based on past experiences. He pointed out that despite earlier plants like Arya, PTCL being established in their region local villagers have not been given employment opportunities. He questioned why in spite of having many qualified individuals in the village who are capable of doing jobs like mechanical, loader operators, and dumper drivers they are not being considered. He expressed frustration that when these individuals approach the plant management or the municipality they are not accepted or even given a fair opportunity. He further emphasized that the operation of the plant will undoubtedly lead to pollution-related challenges which will directly affect the lives of the villagers. Therefore, he insisted that locals should be prioritized for employment so that they can live peacefully and benefit from the development. Further, he said that if the plant is

No. 14091 /IND-II-PH- 1240

Date 25-07-2025

By Speed Post / Email:

To,

The Regional Officer,
State Pollution Control Board, Keonjhar

**Sub: Delay in submission of Proceedings of Public Hearing in
respect of M/s Dubey Brothers Iron and Metals Pvt. Ltd., At. Kolha
Barapada, Barbil, Dist. Keonjhar - reg.**

Ref: (i) Your Letter No. 1266 dtd. 03.07.2025 received by this office on
11.07.2025

(ii) This office letter no. 7549 dtd.10.04.2025

Sir,

With reference to the subject cited above, this is to inform that earlier several office orders have been issued by the Board including this office letter under reference, regarding timely submission of proceedings within 07 days of completion of the public hearing. in spite of several communications, it has come to the notice of undersigned that you are not adhering to the stipulated time frame for submission of proceedings of public hearing to the Head Office. In the aforementioned public hearing case, it is observed that the Public Hearing of **M/s Dubey Brothers Iron and Metals Pvt. Ltd., At. Kolha Barapada , Barbil, Dist. Keonjhar** has been completed on **23.05.2025**. However, the proceedings of the public hearing been received by this office **almost after one and half months** of completion of public hearing. However; the reason for such delay has not been clearly specified in the forwarding letter. As you are aware that the public hearing is a time bound process, such practices often result in unwarranted situation for the Board to answer the concerned regulatory authority regarding delay.

You are therefore instructed to specify the reason for such delay in forwarding the proceedings of the public hearing of **M/s Dubey Brothers Iron and Metals Pvt. Ltd., At. Kolha Barapada, Barbil, Dist. Keonjhar** within 07 days, so that the same will be communicated

Yours faithfully,

MEMBER SECRETARY

SP CB-PH-MISC-0044-2024/8/2025

operated in strict compliance with pollution control guidelines ensuring environmental standards are maintained then they will support the plant's operation.

23. Md. Amzad, Kolha Barpada

Md. Amzad mentioned that there are many technicians and laborers available in the village, but all of them have remained unemployed. He expects that this plant will provide employment to all of them according to their skills.

The Regional Officer, SPCB, Keonjhar read over the issues raised by the public in the hearing. Sri Mrutunjay Das representative of M/s Dubey Brothers Iron and Metals Pvt Ltd responded to the issues raised. Sri Rabindra Kumar Pradhan, OAS (S), ADM (Revenue) Keonjhar gave concluding remarks of the Hearing.

The issues raised by the public and corresponding comments of the applicant were prepared in Odia and English and it is annexed with the proceedings as Annexure I & II respectively, list of the oral deliberators and participants in the hearing is annexed as Annexure III & IV respectively. Two numbers of written representations received during public hearing is annexed as Annexure-V. The videography of proceedings are recorded and submitted in pendrive (I).

Hearing ended with thanks to the chair.

STATEMENT OF ISSUES AND DEMANDS RAISED BY THE PUBLIC AND RESPONSE OF THE PROJECT PROPONENT OF M/S DUBEY BROTHERS IRON AND METALS PVT LTD FOR ESTABLISHMENT OF IRON ORE BENEICIATION PLANT WITH THROUGHPUT CAPACITY OF 0.15 MTPA OVER AN AREA OF 1.768 ACRE HELD ON 23.05.2025 AT 11.00 AM AT MOUZA- KOLHA BARPADA, (KHATA NO. 169 (AJA), PLOT NO. 214, KISAM-JUNGLE) PROPOSED AREA 2.00 DEC UNDER BARBIL TAHASIL OF KEONJHAR DSTRICT.

Sl No.	Issues raised	Response of Project Proponent
Environmental Issues:		
1.	Adequate Dust Suppression Measures to be taken to control road dust emissions and ensure minimal impact on environment.	Daily One No of Water Tanker with a Capacity of 1000 KLD will be deployed for Dust Suppression Measure. Water Sprinkler will also be provided for water sprinkling at Haul Road inside the plant.
2.	Plant shall ensure to keep air pollution within the standard after commencement of operation.	Ambient Air will be monitored regularly by Third Party NABL Accredited Laboratory and the report will be submitted.
Peripheral Issues:		
1.	Employment: i. Priority to locals of Kolha Barpada village instead of outsiders for employment as per the qualifications/skills. ii. Clarification regarding categories and which specific area/village the local employment opportunities will be provided to seventeen numbers as assured by the Project Proponent. iii. To

The District ADM Keonjhar,

Subject: Request for Conducting Public Hearing on Key Local Issues

Respected Sir/Madam,

We, the undersigned representatives of the local community, would like to draw your kind attention to several pressing issues affecting the residents of our region. In this regard, we respectfully request your esteemed office to organize a Public Hearing at the earliest convenience, enabling us to voice our concerns and seek necessary interventions.

The following matters are of significant concern to the local population:

1. Local Employment Opportunities:

Despite the presence of various industries and development projects, local youth are facing severe unemployment. A platform for dialogue is necessary to explore how job opportunities can be created and reserved for local candidates.

2. Improved Local Transportation:

The region suffers from poor connectivity, limiting mobility for work, education, and healthcare. A reliable local transportation system is essential for economic and social development.

3. Accessible Medical Facilities:

There is a critical need for accessible and well-equipped healthcare centers in the area, as people often have to travel long distances to avail even basic medical services.

4. Preservation of Tribal Culture and Heritage:

We urge for support in organizing regular tribal cultural programs and preservation activities to protect the rich heritage of the indigenous communities.

5. Skill Development Initiatives:

There is an urgent need for skill development programs tailored to local youth to enhance their employability and entrepreneurship potential.

We believe that a public hearing under your leadership would provide a valuable platform for meaningful discussion and collaborative solutions. We are confident that your kind intervention will go a long way in addressing these concerns and fostering inclusive development in the region.

Thank you for your time and support. We look forward to a favorable response.

Yours sincerely,

Goura Chandra Munda

STATE POLLUTION CONTROL BOARD, ODISHA

(Forest, Environment & Climate Change Department, Govt. of Odisha)
Paribesh Bhawan, A/118, Nilakantha Nagar, Unit-VIII, Bhubaneswar - 751012

8059 IND-II-PH-1240

Date : 22.04.2025

NOTICE

It is brought to the notice of all concerned that M/s Dubey Brothers Iron and Metals Pvt. Ltd. has proposed to have Environmental Impact Assessment for establishment of Iron Beneficiation Plant with throughput capacity of 1.5 MTPA over an area of 1.768 Ha in Mouza-Kolha Barapada, under Barbil tehsil of Keonjhar district to obtain Environmental Clearance from State Environment Impact Assessment Authority (SEIAA), Odisha. The proponent has applied to the State Pollution Control Board, Odisha, Bhubaneswar for a Public Hearing.

In virtue of the Ministry of Environment, Forests & Climate Change, Government of India Notification No. S.O. 1533 (E) Dtd. 14.09.2006, the Board has been authorized to conduct public hearing for Environmental Clearance and as such invites suggestions, views, comments and objections on matters relating to environmental aspects of the proposed mining project from all the persons including bonafide residents, environmental groups and others located at the proposed site / sites of displacement / sites likely to be affected.

For the above purpose, a person will only mean:

1. Any person who is likely to be affected by the grant of Environmental Clearance.
2. Any person who owns his control over the project with respect to which an application has been submitted for environmental clearance.
3. Any association of persons whether incorporated or likely to be affected by the project and/ or functioning in the field of environment.
4. Any local authority within any part of whose local limits is within the neighborhood, wherein the project is proposed to be located.

Persons as above who desire to submit their views, comments, objections etc. relevant to the project, may do so in writing within **30 days** from the date of publication of this notice addressing the same to the Member Secretary, State Pollution Control Board, Odisha through Registered Post. Besides this, persons interested to submit their views relevant to the proposed project in writing or orally may also do so during the public hearing to be conducted on **23.05.2025 at 11.00 A.M at Mouza: Kolhabarapada (Khata No. 169 (A), Plot No. 214, Proposed Area: Ac.2.00 Dec., Kissam: Jungle) under Barbil tehsil of Keonjhar district.**

Persons desirous of participating in the public hearing may go through the Environmental Impact Assessment (EIA) /Environmental Management Plan (EMP) of the said project which will be available at the following offices. Copy of the Executive Summary both in English & Odia is also available in the following offices & the same can also be downloaded from website <https://ospcboard.odisha.gov.in> free of cost.
