and Minutes have to be finalised.

It is submitted that most of the issues resulting to pollution and steps required to be taken, were discussed and report will be submitted to the Tribunal. Permitted.

In the meanwhile, we direct State of Haryana and also NCT Delhi to take required steps to check the pollution. Though, the issue is with regard to high level of Ammonia in the water which is reaching the water reservoir of Delhi Jal Board, if you take the entire river eco-system the pollution level in the portion of the river passing Delhi also needs to be properly checked. In the circumstances, we direct both, the State of Haryana and NCT of Delhi to ensure that they identify the source of pollution and address it appropriately. The Central Pollution Control Board and Delhi Pollution Control Committee shall be involved to ensure the erring industry or local bodies and other parties who are causing pollution are dealt with appropriately and check the pollution level. The report submitted earlier by the Central Pollution Control Board to the Tribunal needs to be rechecked both with regard to pollution levels of Ammonia downstream at Khojkipur Drain No. 2 and Khojkipur drain as a figures appearing in the report appear to be incorrect.

The Central Pollution Control Board shall monitor the entire process. We have directed to be undertaken by the State of Haryana and NCT Delhi.

Report be submitted before the Tribunal by Monday.

List these cases on 27th February, 2018.

Issue order by dasti.
